25X1

DATE OF CONTENT December 1949 to April 1950DATE PREPARED 17 November 1950

1. The Warsaw-Joclawska (R 53/L 08) airfield is on the eastern bank of the Vistula River, and about 2,500 meters from the highway bridge leading from Warsaw to Praga on the extension of Jerusalem Street (ulica Jerusalemska). The Vistula River is south of the field, the suburb of Saski Kępa (R 53/L 08) toward the west and northwest, and the villages of Eluszczy and Las (R 53/L 08) toward the east and south-east. The field extends about 1,000 meters along the Vistula River. Three hangars, steel structures 80 to 100 meters long, were under construction when the field was observed.

2. Three biplanes and three gliders were seen in flight.\*

25X1

\* Comment. The report confirms previous information. the field was also believed to be used only by an air sports association. No other use of the field was apparently intended, since the construction of the hangars, which started three years before, proceeded very slowly. A previous report stated that one hangar was old and belonged to the Aeroclub.
